WALLFRAME MOLDING

Bring those walls to life today with our classic wall frame molding and create something new with those plain long walls.

With the addition of simple strips of Wood trims, your walls can go from plain to elegant with our wall molding frames.

The new look does not mean you will have to forgo hanging your artwork, you can actually make these wall frames into a nice frame around your wall paintings or pictures.

We use wooden frames for our molding installation which makes them very reliable and strong.
